

# Lakewood Fire District No. 1

733 Cedar Bridge Avenue  
Lakewood, NJ 08701

## PRESS RELEASE

**FOR IMMEDIATE RELEASE**

**April 27, 2022**

**Subject: Lag B'Omer Safety & Permit Information**

**Contact: Yehuda Beer, Fire District Administrator 732-364-5151**

### **Lag B'Omer Safety & Permit Information**

With Lag B'Omer just around the corner, the Lakewood Board of Fire Commissioners in conjunction with Fire Chief Jonathan Yahr, Fire Prevention Coordinator Jacob Woolf, Fire Department Chaplain Rabbi Moshe Rotberg, members of the Lakewood Fire Department and the Office of the Ocean County Fire Marshal offer the following safety tips and Bon Fire permit information.

Bonfire Permit: Anyone planning on having a bonfire must have a permit from the Ocean County Fire Marshal's Office (OCFM). They can be contacted by calling 732-370-7360. A permit application must be fully filled out and submitted to the Ocean County Fire Marshal's Office along with the permit fee of \$54 a minimum of 72 hours prior to the proposed event. A permit can be obtained and submitted by visiting the Ocean County Fire Marshal's Office website. [www.oceancountyfiremarshal.com](http://www.oceancountyfiremarshal.com) there is an option for paying by credit card as well.

New this year permit applications may also be filed in person at Fire Headquarters located at 733 Cedar Bridge Avenue, Lakewood from Monday, May 9<sup>th</sup>, 2022 to Friday May 13<sup>th</sup>, 2022 between the hours of 10:00 a.m. and 3:30 p.m. In person payment is by check only, made payable to "OCEAN COUNTY FIRE MARSHAL"

Please follow all rules and regulations of the OCFM's Office including but not limited to:

- **Provide the most accurate time for the fire to begin as the pre-inspection schedule is set up based on the time on the application. All time changes after the application is submitted must be provided at least 72 hours prior to the bonfire. The ignition time of the bon fire you submit must be adhered to or it may result in the permit not being approved.**
- Those planning bonfires that may affect traffic and/or those bonfires requiring police assistance should contact the Lakewood Police Department Traffic & Safety Unit.
- A 15-foot safety area must be set up around the bonfire (depending on the bonfire size). No fires are to be set up with wood chips or mulch as a base.

# Lakewood Fire District No. 1

733 Cedar Bridge Avenue  
Lakewood, NJ 08701

- Only use clean wood, do not use flammable liquids to start the fire, and have a garden hose with a steady water source at the ready.
- Do not ignite the fire until a Fire Marshal has inspected your site and given the approval.
- Anyone who does not have an approved Permit will have their fire extinguished and may be subject to penalties.
- The size of the fire, an approximate 5' x 5' x 5', will vary depending on weather issues and available open space and will be strictly adhered to. Stay tuned to your weather stations for up-to-date weather conditions. If asked by a Fire Marshal to reduce the size of the fire, please follow their directions. They may have a reason due to the weather conditions and/or other considerations at the time.

The Location: Location needs to be taken into consideration prior to building a fire. A good rule to follow is to keep the fire a minimum of 50 feet from any type of building or vehicle. Avoid building the fire near low-hanging branches, tall grass, or brush. Basically, stay away from items that can easily catch on fire.

The Fire Pit: Building a proper fire pit is one of the best precautions to take. Instead of building the fire on the surface of the ground, if applicable, dig a hole at least 12" to 18" deep. The diameter of the fire pit should be at least two feet wider than the fire will be. Place small rocks or gravel in the bottom of the pit for proper drainage. Make a circle of larger stones around the perimeter of the pit. Don't pile firewood too high. A small amount of wood, combined with kindling materials, will start a good fire. Don't let flames exceed three feet in height or width.

Bonfire Safety Measures: Have a garden hose with a steady water source at the ready. Don't leave flammable materials near the fire pit. Gas, lighter fluid, and alcohol are combustible items that will feed the fire and should NOT be used. Do have a shovel nearby. Once the bonfire burns out, use a shovel to turn the materials in the fire pit so blowing embers won't sweep out of the pit and start a rogue fire elsewhere.

Common Sense: A bonfire needs constant attention. Only a responsible adult (18 years or older) should tend the fire. Children should never be allowed to play near an open fire. Bring a first aid kit along. If an injury occurs, you'll have supplies available to dress any injury. Call for emergency assistance when needed. Build the fire in a safe location and have emergency materials handy in case of a crisis. Being prepared for the worst while expecting the best, is a good motto for bonfire safety. Follow the direction and supervision of the Fire Marshall at all times.

In Case of Injury/Danger: Do not hesitate to call the appropriate emergency services, the Lakewood Fire Department and/or Hatzolah. Follow the instructions of the Fire Marshal.

Stop, Drop and Roll: Review, the principles of "STOP, DROP and ROLL" which are simple: STOP – do not run if your clothes catch on fire. DROP – to the ground and cover your face. ROLL – continue to roll to smother the fire.

The Lakewood Fire Department wishes the community a Happy and Safe Lag B'Omer!
