SOLAR PANEL AWARENESS TRAINING

With support from the Board of Fire Commissioners of the Lakewood Fire District and Chief of Department Mike D'Elia, 2nd Assistant Fire Chief Steve Mulholland arranged for a presentation

on Solar Panel Awareness which was held on the evening of February 15, 2017. Trinity Solar Representatives Bill Condit and Kevin Kura delivered a wealth of knowledge to 37 members of the Lakewood Fire Department who were in attendance.

With the growing popularity of solar panel installations, this training enabled our firefighters to gain a better understanding as to how these systems operate. Most importantly, they are now better prepared to respond and handle incidents involving solar panels.

The Lakewood Fire Department has an ongoing training program and, as usual, these dedicated members of the Lakewood Fire Department took time away from their families to attend this valuable and informative presentation. The knowledge these individuals acquired will be disseminated throughout the Fire Department and enhance the safety of the firefighters as well as the Township of Lakewood community.
